

主旨: Re : Response to Public Engagement Exercise on Population Policy

Secretariat of the Steering Committee on Population Policy

Dear Sir/Madam,

I have the following responses for the captioned engagement exercise:

ch2
flexible working hour and place for female
tax incentive for business sector
provide more government land to business sector
health care service can help the workers
more training for the youth
disabled and artist should be encouraged
education and training can enhance the integration and unleash the potential of new arrivals, Type II children,
person with disabilities and the ethnic minorities
ch3
It should be market driven.
Yes, we should facilitate a closer alignment.
Some student exchange programs with tertiary graduates can be provided.
Provide better education and training.
Security of job can revive the value.
Improve and promote open university and HKU space programs.
ch4
Yes, we can recruit talent overseas.
Medical and computer industries should be targeted.
Language barrier
Language training
Tax deduction can encourage HK people return to HK.
No barrier
High tax for import FDH
Yes, priority should be given.
Language barrier
Language training
ch5
Yes, effective measure should be adopted.
Equally shared among the employer and employee
Lower cost of living can help young couples.
ch6

Lower cost of living can help the elderly.
Some incentive can be provided.
Do some exercise in garden and art works in factory buildings
Medical care can help the elderly.

Your attention is highly appreciated.

Your faithfully,

Kam Kin Pong
