Government of HKSAR is talking non-sense! I have worked for the HKSAR government as a contract staff until now, but I have kept suffering from unemployment and the total unemployment period nearly last for 10 years! I really do not understand why government employ contract staff but not civil services jobs and thus causing me to suffer from unemployment always!

(Once, after 1 government contract, I waited for 2 years at home in order to get another government contract, and now I still suffer from unemployment and now I have been waiting for 1.5 years at home!!!) Remember, private companies prefer not to employ government staff!!!!
