NG Kit-chee ( 吳潔慈)

Comments:

I am a teacher working in a government primary school. As I know, many teachers including me are about to retire at the age of 60 are still very passionate and devoted to their career. We are very well-experienced and professional. We are still very energetic and productive. We are ready and willing to continue to work after 60. As the Government Educational Staff Union and the Hong Kong Professional Teachers' Union jointly claimed that they object the idea of the extension of retirement age, I feel very disappointed about it because even though I am a permanent member of GESU, all the members of these 2 unions had not been asked for our opinion. The 2 representatives of the 2 unions just voiced out their own opinion as the unions opinion. There are no discussion among the members.
