取回單程證審批權

It is very import for the HK govt to take back the one way permit approval authority. It is clearly that there are too many people living in HK and 150 quotes per day will only make the society worst off. And, letting this new immgirants will not solve the "aging population". There is no city/country in this world which does not have the determination authority on whose is allow to come as an immgirant!!!

Stop the 150 quotes, take back the approval authority!!
